MOORING ARRANGEMENTS AT GRASSY HARBOUR KING ISLAND RACE

To all boats these are the instructions for mooring in Grassy.

- You will be directed to a mooring by a KIBC boat; up to 3 boats will raft up on a mooring.
- The mooring boat must pull up the chain and pass their rope through it to moor off.
- This is best done as a running rope for leaving.
- Take care that you do not use the existing rope on the chain and when leaving you cast it off correctly.
- If you are having trouble pulling up the chain, attach a sheet to the existing mooring line and winch it up with a sheet winch.
- Some moorings cannot be used – please follow instructions from the KIBC boats.

Please respect the directions of the KIBC and the local fishermen who allow us to use their private moorings for the event.
